

Xavier Pinson (Film 1-26-2021 vs. Auburn)

Offensively, Pinson finished very well in the paint; he made a contested floater with a defender hanging all over him. Pinson has a nice handle creating space and blowing by his defender, getting into the lane, then finding a cutter on the baseline for an And1 layup. He passed the ball well this game; one play that stood out was when he got caught in the air under the basket but threw a dart to a shooter in the corner for a wide-open 3pt attempt.

Defensively, he needs to be a little more aggressive because there are opportunities to create turnovers that he didn't seize. He had a bit of trouble staying in front of his made, which led to him reaching and getting into foul trouble.
