

Yves Missi vs Kansas 3/2/2024 – Film

Offensively, he was very active in and around the lane. He attacked the rim multiple times from the top of the key, demonstrating good footwork with jabs and spin moves to elude defenders. He was in pick-and-roll action, highlighted by a monster dunk on the left side early in the first half where he powered through a defender for a two-hand finish. Missi also contributed on the offensive glass, pulling down three rebounds.

Defensively, Missi's team played a lot of 1-3-1 zone with him anchoring the back end. Despite the team's slow rotations that led to several interior scores, his individual defensive effort was commendable. He competed effectively when isolated on the interior and showed versatility by switching onto a wing player and blocking a mid-range jumper.

He showcased his offensive skillset with aggressive attacks on the rim and solid pick-and-roll play, complemented by his activity on the offensive boards. Defensively, he was a strong presence despite his team's overall struggles, proving effective both in the paint and on the perimeter
