

Xavier Pinson (Film 2-13-2021 vs. Arkansas)

On offense, he shot the ball well, making four 3pt shots; he had a deep pull-up 3 from the top of the key, which was impressive. He is extremely quick off the dribble and can get to the lane in a hurry, but he tended to leave his feet too much, which got him into trouble with turnovers.

On defense, he showed a lot of heart and athleticism when he grabbed a rebound over a player that was 5 inches taller than him. He can move his feet very well, which was displayed when he played lock-down defense on Arkansas' point guard on the last possession of the game to force overtime. He could improve on being aware of his foul situation because he took a bad blocking foul that ended up having him sit the last 5 minutes of the first half.
