

Isaiah Mobley (USC) 6'10" 235 PF/C (Film 12/03/20 vs. UCONN)

Isaiah Mobley showed flashes of skill that are really promising. He had a really nice drive to his left where he spun back and hit a right handed hook off the glass and had a couple nice passes. He has good size, length, and moves pretty well. If he adds strength it would help his game a lot. He got pushed off of a couple of his drives and was not able to get to the rim. For a big his size I wish he could've gotten easier baskets around the rim. He made 3 out of 4 attempts from the free throw line but shoots around 50 percent on his career, which is concerning in times of his perimeter jump shot development. He is currently 0/5 from three too.
