

## **Carlton Carrington vs Wake Forest**

**1/31/24**

**Film: ACCN**

### **Offensive Skills:**

Carrington showcased his ability to utilize mid-range jumpers as his offensive weapons. A play that stood out to me was Coming off the high PNR, going R, getting the big on him and hitting the mid range jumper over him. Carrington hit clutch free throws. Carrington made 4 straight free throws to secure his team victory. Carrington shot poorly in this game from 3. He shot 2/7 from beyond the arc. He showed perseverance in the second half and the ability to make three in PNR situations. In this instance, he comes off the PNR and hits the three after the defender goes under the screen, for example.

### **Defensive Skills:**

Carrington displayed the ability to defend on the ball. He defends well. He fights through screens, always closing on the shot. He moves his feet, beating his opponent to the spot. Something he did wrong was fouling the jump shooter beyond the arc with 33 seconds left.

### **Conclusion:**

Carlton Carrington showcased his strong offensive skills through his mid range jumpers and his ability to hit clutch free throws. Defensively, he displayed excellent on-ball defense and moved his feet effectively. However, there is room for improvement in his shooting from beyond the arc, as he shot 2/7 in this game.
