

Carlton Carrington vs NC State

2/7/24

Film: ESPNU

Offensive Skills:

Carlton Carrington displayed the ability to get his teammates involved in the offense. A play that stood out to me was when he came off the PNR going L, got in the lane and dish it to his teammate for three. In another play, he came off the dribble handoff going R, got in the lane and dish it to his big man for two. One thing he didn't do well was his three-point shooting. Carrington shot 0/4 but made 6/6 from the FT line.

Defensive Skills:

Carrington displayed ability as an on ball defender. Something that stood out to me was him moving his feet well on the ball, beating his man to the spot and contesting shots. One thing he did wrong on a play was reaching for a jumper. This led to the referee calling a foul on him.

Conclusion:

Carlton Carrington demonstrated impressive offensive skills, such as his ability to involve his teammates in the offense and his passing skills in the lane. Defensively, he showcased his strong on-ball defense and moving feet. However, an area of improvement for him would be his three-point shooting consistency.
