

Report #3 (film 12-12-2020 vs Belmont)

He starts off the game going to his inside shoulder again from the post. Used quick hands to score a tip in off his own miss. Grabbed another offensive rebound and scored. Got deep in the paint and scored after sealing the defender. Tried to force a pass to the cutter that wasn't open. Has a consistent motor, he tipped a rebound to himself and scored a and 1. Not a good free throw shooter. Very active on the offensive glass with another offensive rebound followed by an and1. Offense is predicated on him in dribble handoff and not the pick & roll. He finished the game with 29 points and 11 rebounds and 3 assists.
